

Centene's New Provider Claims Menu Redesign in the IVR Underscores a Relentless Commitment to Superior Digital Solutions

PROVIDERS HAVE A NEW CLAIMS MENU TO HELP THEM QUICKLY ACCESS IMPORTANT CLAIMS INFORMATION IN CENTENE'S IVR (INTERACTIVE VOICE RECORDING).

The new provider menu requires less input from providers to get basic information on a claims status.

The 1st phase of the new Provider Claims Redesign includes the following key enhancements:

- ✓ New Claims Upfront Message informing callers of changes
- ✓ Ability to search by Claim ID
- ✓ Ability to search and list all of a Member's Claims within the last 90 days
- ✓ Ability to search by Claim DOS without having to enter Billed Amount or Members DOB
- ✓ Added playback control and skip functions to easily access claim information

For more information on training opportunities for you and your internal team, please contact your Provider Representative.

Engaging your Patients in Medication Adherence Discussions

According to the American Medical Association, patients only take their medications half of the time. Adherence is defined as a patient who takes their medications at least 80% of the time, and with the current rate of 50% adherence in the general public, this area is worth addressing. To combat this lack of adherence, engaging with your patients is essential.

Below are some tips on how to assess for medication adherence in your patient.

- 1 Create a routine by asking every patient about their adherence to medications.**
- 2 Ask open-ended questions.**
 - Can you tell me how you are taking this medication?
 - What do you think about this medication?
 - How do you remember to take your medicine?
- 3 Ask the patient about barriers that hinder them from taking their medication.**
 - What bothers you about this medication?
 - What stands in the way of you taking your medicine?
- 4 Offer a supportive, non-judgmental atmosphere by using motivational interviewing:**
 - Listen to the patient's concerns
 - Ask the patient about their health goals
 - Avoid arguments and adjust to resistance
 - Support optimism and give encouragement
 - Understand and respect patient values and beliefs
- 5 If the patient says they are non-adherent, thank them for sharing before continuing to assess.**
- 6 Develop a plan to address barriers the patient is experiencing and involve the patient in your decisions. One way to do this is to offer clinically appropriate options for them to choose from.**
 - Use the word “we”.
 - We can try option 1 or option 2. What do you think about these options? Which of these do you think best suits you?

We value everything you do to deliver quality care to our members – your patients. Thank you for playing a role in assessing and improving medication adherence in your patients.

Annual CAHPS® Survey – What Matters Most to Your Patients

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®) is an annual survey mailed to an anonymous select sample of our health plan members. The purpose is to assess member experience with their providers and health plan to improve the quality of care provided. This survey focuses on asking your patients whether or how often they experienced critical aspects of health care, including communication with their doctors, understanding how to take their medications, and the coordination of their healthcare needs. **We hope you will encourage your patients to participate if selected.**

The pharmacy team can affect the member experience, whether we interact with members directly or not, by ensuring that we address the following items that are addressed in the annual CAHPS survey:

- ✓ Assist members in understanding and accessing their pharmacy benefits (i.e. what medications are/are not covered),
- ✓ Identify (and mitigate) barriers to members obtaining and taking their medications.
- ✓ Ensuring appropriate communications with providers and health plans occur to complete the processing of timely authorizations

These factors are important for our members (your patients) to take their medications on time but also to ensure adherence of their medication regimen(s).

We value and appreciate the excellent care you provide to our members and look forward to partnering with you.

We offer non-benefit resources such as help with food, rent and utilities.

**MISSISSIPPI PROVIDERS ONLY**

WellCare Outpatient Imaging Program Provider Education Webinars

IN AN EFFORT TO CONTINUE PROMOTION OF QUALITY IMPROVEMENT FOR SERVICES PROVIDED TO WELLCARE MEMBERS, EFFECTIVE APRIL 1, 2021, WELLCARE WILL USE NATIONAL IMAGING ASSOCIATES, INC. (NIA) TO PROVIDE THE MANAGEMENT AND PRIOR AUTHORIZATION OF NON-EMERGENT, ADVANCED OUTPATIENT IMAGING SERVICES.

Services managed and authorized by NIA include **outpatient:**

- ✓ CT/CTA
- ✓ CCTA
- ✓ MRI/MRA
- ✓ PET Scan
- ✓ Myocardial Perfusion Imaging
- ✓ MUGA Scan
- ✓ Stress Echocardiography
- ✓ Echocardiography

All Health Plan-approved training/education materials are posted on the NIA website, **www.RadMD.com**. For new users to access these online documents, a RadMD account ID and password must be created.

To start, go to **www.RadMD.com**, click the *New User* button and submit a “RadMD Application for New Account.” Once the application has been processed and a password link delivered by NIA via e-mail, you will be invited to create a new password. Links to the approved training/education documents are on the My Practice page for providers logged in as an Imaging Facility and among the RadMD Menu Options for providers logged in as Ordering Physician. If you are an Imaging Facility or Hospital that performs imaging exams, an administrator must accept responsibility for creating and managing all logins to RadMD. Your RadMD login information should not be shared.

90-Day Prescriptions and Mail Service Pharmacy

MEDICATION ADHERENCE IS CRITICAL IN MANAGING CHRONIC CONDITIONS.

Reducing frequency of refills and increasing convenience can help remove some barriers that patients may experience trying to remain compliant with their medication regimens. When clinically appropriate, we encourage providers to order 90-day prescriptions for treating conditions like diabetes,

hypertension, and high cholesterol. As an added benefit, WellCare members qualify for prescription home delivery through our partner, CVS Caremark.

More information and registration details can be found at <https://www.wellcare.com/Michigan/Providers/Medicare/Pharmacy/CVS-Caremark>.

Did you know that you can easily identify which of your patients can be converted from 30-day to 90-day prescriptions easily with our RxEffect Provider Tool?

Check out the RxEffect Video here: <https://www.youtube.com/watch?v=loEKiM7veZQ>

To learn more about RxEffect, visit www.rxante.com and speak with your Provider Relations and/or Quality representative.

Osteoporosis Screening in Women

Osteoporosis is the most common metabolic bone disease and is characterized by low bone mineral density and structural deterioration of bone tissue, causing bone fragility and increasing the risk of fractures. It's estimated that approximately 12.3 million people age 50 and older have osteoporosis. Osteoporosis affects about 25% of women 65 years and older.

The U.S. Preventive Services Task Force (USPSTF) recommends screening for osteoporosis with bone

measurement testing to prevent osteoporotic fractures in women 65 years and older. Be sure to educate your patients on their risk for osteoporosis and the importance of completing a bone mineral density test (BMD) or adding an osteoporosis medication to their treatment plan, especially women 65 and older and those who have suffered a fracture within the last six months.

Electronic Funds Transfer (EFT) Through PaySpan®

FIVE REASONS TO SIGN UP TODAY FOR EFT:

- 1** **You** control your banking information.
- 2** **No** waiting in line at the bank.
- 3** **No** lost, stolen, or stale-dated checks.
- 4** Immediate availability of funds - **no** bank holds!
- 5** **No** interrupting your busy schedule to deposit a check.

Setup is easy and takes about five minutes to complete. Please visit <https://www.payspanhealth.com/nps> or call your Provider Relations representative or PaySpan at **1-877-331-7154** with any questions.

We will only deposit into your account, not take payments out.

Updating Provider Directory Information

WE RELY ON OUR PROVIDER NETWORK TO ADVISE US OF DEMOGRAPHIC CHANGES SO WE CAN KEEP OUR INFORMATION CURRENT.

To ensure our members and Provider Relations staff have up-to-date provider information, please give us advance notice of changes you make to your office phone number, office address or panel status (open/closed). Thirty-day advance notice is recommended.

**New Phone Number, Office Address or
Change in Panel Status:**

Please call us at: 1-855-538-0454

Thank you for helping us maintain up-to-date directory information for your practice.

Provider Formulary Updates

There have been updates to the Medicare formulary. Find the most up-to-date, complete Formulary at www.wellcare.com. Select your state from the drop-down menu and click on Pharmacy under Medicare in the Providers dropdown menu.

You can also refer to the Provider Manual to view more information regarding WellCare's pharmacy Utilization Management (UM) policies and procedures. To find your state's Provider Manual visit www.wellcare.com. Select your state from the drop-down menu and click on Overview under Medicare in the Providers drop-down menu.

Point of Care Formulary Information for Providers

PRESCRIBE WITH CONFIDENCE – EVERY DRUG. EVERY PLAN. EVERY TIME.

Are you and your team spending valuable time processing prior authorizations?

We have expanded our relationship with MMIT to deliver comprehensive drug coverage information directly to your desktop and mobile devices. In addition to WellCare's extensive support resources, providers can identify plan-specific drug coverage and restriction criteria as well as alternative therapies with these medical applications.

Epocrates®, an athenahealth service, is the #1 point of care medical app among U.S. physicians. It is trusted by over 1 million healthcare professionals. Just download the free app or search from your desktop with epocrates® web at www.epocrates.com.

MMIT's Coverage Search is a top-rated drug coverage search application. Download the free app or search from your desktop at www.FormularyLookup.com.

Quickly obtain the details you need to select the best therapeutic option, eliminate denials and reduce administrative drain on you and your team with epocrates® and Coverage Search.

Provider Bulletins

Remember to view the online **Provider Bulletins** regularly for important updates and notices.

Visit www.wellcare.com; select your state, click on *Providers*, scroll down and click on **READ BULLETINS**.

Provider Resources

Provider News – Provider Portal

Remember to check messages regularly to receive new and updated information. Access the secure portal using the Secure Login area on our homepage. You will see Messages from WellCare on the right.

Resources and Tools

Visit www.wellcare.com/Providers to find guidelines, key forms and other helpful resources. You may also request hard copies of documents by contacting your Provider Relations representative.

Refer to our *Quick Reference Guide*, for detailed information on areas including Claims, Appeals and Pharmacy. These are at www.wellcare.com/Providers, click on *Resources* under your state.

Please remember that all Clinical Guidelines detailing medical necessity criteria for several medical procedures, devices and tests are available on our website at www.wellcare.com/Providers, click on *Clinical Guidelines* under your state.

MO PROVIDERS ONLY:

To add new practitioners to existing groups or to request updates or provider terminations, please email mail to: CHHS_Provider_Roster@Centene.com Please visit <https://www.homestatehealth.com/providers/tools-resources.html> for roster templates.
